PROJECT SUMMARY - BOOMI

Project Name Success factor integration with Sterling

Client SYSCO

Employer Infosys Limited

Role Developer

Team Size 3 members

Technologies Java script, groovy script, SuccessFactor, Sterling, Webservice

Duration 2 years

Project Abstract:

<https://www.indeed.com/r/Yogi-Pesaru/2ed7aded59ecf425?isid=rex-download&ikw=download-top&co=IN>

The integration for Sterling is a two-way integration to support the investigation and confirm accuracy of background information provided by selected candidates who have received have passed phone screening & or accepted verbal offers of employment.

Boomi is the middle ware between success factor and sterling systems.

Boomi sender interface picks up the profiles from SF and send to sterling for background verification. After receiving request from boomi sterling will send synchronous response with an Oder number, which will be updated to SF synchronously. After some time boomi receiver process (listener process) receives the asynchronous results from sterling which are updated back to SF.

Role and responsibilities:

- Requirement analysis.
- Design as per the requirement.
- Process development as per design.
- Unit testing the applications.

PROJECT SUMMARY - PI

Project Sysco MS Development

Systems Engineer

Infosys Limited -

September 2013 to September 2015

EDUCATION

B. Tech in ECE

Vidya Bharati Institute Of Technology - Hindupur, Andhra Pradesh

2008 to 2012

Hosanna National High School

2006

SKILLS

C+ (Less than 1 year), Citrix (Less than 1 year), integration (2 years), INTEGRATOR (2 years), Java (2 years)

ADDITIONAL INFORMATION

TECHNICAL PROFICIENCY

Integration Tools SAP PI (7.1, 7.31), Eclipse, Citrix, SQL Server Data, SOAP UI, NWDS, Solution Manager, HPQC, POSTMAN
Backend Technologies Oracle and MS SQL.
Languages Core Java, C++, C.

KEY STRENGTHS

- Initiative, Leadership Qualities and Team spirit.
- Proficiency in Communication skills, Positive attitude.
- Good knowledge about Technology and interest towards new learning.
- Responsibility and patience to do work assigned by superiors.
