Around 4 years of IT experience in analysis, testing and scripting on L2/L3 layer protocols and
desiging testcases and automating the same in TCL/TK and Python.

• Expertise in Networking Protocols L2, L3 protocols, Manual, Performance, Platform, Regression
and Automation Testing.
• Experience in python scripting and PYATS framework.
• Coordinating with onsite/offsite teams in resolving the defects found in Testing and working on
queries raised by customers..
• Reviewing the automated scripts.
• Exposure to Networking Protocols such as DHCP, OSPF, RIP, VLAN, STP/RSTP, LACP, TCP/IP,
IPv4, Ipv6, Ethernet.
• Automation in Python.
• Excellent ability to plan, organize and prioritize my work to meet on time the deadlines of my
clients and keep customer's satisfaction at the highest level possible.
• Proven ability in quick understanding and learning of new technologies and their application
in business solutions
• Good debugging and problem solving skills with excellent understanding of system
development methodologies, techniques and tools.
• Highly motivated team member with strong communication, analytical and organizational
skills.
• Strong communication, interpersonal and analytical skills with proficiency at grasping new
concepts quickly and utilizing the same in a productive manner.
• Willingness and ability to quickly adapt to new environment.
• Good positive attitude and ability to learn new things independently.

• Worked as Senior project engineer in Wipro Technologies, from Jan2014 to till date.

Languages: C
Network Analysis Tools: QDDTS, GNS3, IXIA, SPIRENT, PAGENT
Routing protocols VLAN, ETHECHANNELSTP, RSTP, RIP, EIGRP, OSPF, BGP, MPLS, L2VPN, L3VPN,
IPSEC and MULTICAST.
Scripting Language Perl, Tcl/TK, Python
Traffic Generators IXIA, PAGENT, SPIRENT
Management Protocols Telnet, SNMP

Willing to relocate to: UAE - Dubai - abu-dabhi

WORK EXPERIENCE

Senior project engineer

Cisco - Bengaluru, Karnataka -

March 2014 to Present

Cisco 7600 is a router which supports both layer2 and layer3 protocols. It mainly deploys protocols
like MPLS and having specific modules to support the protocols IPSEC. Worked as system testing,
performance testing, stress testing and regression testing for all the IOS release on all layer 2
and layer 3 protocols.

Wipro Technologies Limited (Bangalore, Karnataka)
Senior project engineer (March 2014 till date)

Senior software engineer

Wipro -

February 2014 to Present

Responsibilities:
• Responsible for regression and Manual testing of CISCO IOS -7600
• Test case execution, test case results tracking, debugging, logging defects in CDETS,
reproductions and fix verification.
• Configuration and Testing on Routing protocols OSPF, BGP, OSPF, MPLS, L3VPN, L2VPN, IPSEC,
QOS, SNMP and MULTICAST features on Cisco 7600 Routers.
• Filed critical bugs of high severity, through root cause analysis and effective testing methods
Bug verification, Bug tracking, and documentation and review bug fixes.
• Engaged in regression testing, filing bugs against Cisco IOS images to improve the quality of

the images and send weekly test reports.
• Mentoring of new joiners in the team and conducting technical training sessions.
• Responsibility for the 7600 platform customer queries (AT&T, Bharati, Vodafone, German IT, etc)
• Involved in Sev1, Sev2 and sev3 cases and MW related to L2/L3 Features.
• Create a Local Repro of the issue which was raised by the customer.
• Analyzed the customer issues and will provide the solutions to the customers
• Worked with Developer to verify the DDTs fix for the customer Found Defects
• System Testing on every New IOS build for the L2/L3 protocols.
• Configuration and Testing on routing protocols
• Working on Functionality, Scalability and Performance testing
• Preparing of Test beds and topologies using Line cards – SIP200, SIP400, SIP600, ES+, ES20, GIG and TenGig Lancards, pagent, IXIA Traffic generators etc. to create customer setup in local Labs
• Knowledge on TCL scripting and automated customer found issues into regression testing and also able to troubleshoot the script issues.

EDUCATION

Master degree in computer science in computer science

PES college

S.S.C in computer science

Rajah college

SKILLS

LINUX (4 years), UNIX (4 years), ospf (4 years), bgp (4 years), mpls (4 years), ipsec (4 years), multicast (4 years), l2vpn (4 years), l3vpn (4 years), tcl (4 years), python (2 years)

ADDITIONAL INFORMATION

Operating Systems: LINUX, UNIX
Other protocols ARP, RARP, ICMP,ospf,bgp,mpls,l2vpn,l3vpn
Automaton tools: tcl,python
