

Shreyanshu Gupta

Software Development Engineer with 6 months of experience in Java, C, Velocity, Web Development at Amazon Development Centre.

Bangalore, Karnataka - Email me on Indeed: [indeed.com/r/Shreyanshu-Gupta/6bd08d76c29d63c7](https://www.indeed.com/r/Shreyanshu-Gupta/6bd08d76c29d63c7)

Self-Motivated and Hardworking Computer Science student seeking to apply my skills and in the process, develop professionally.

Willing to relocate: Anywhere

WORK EXPERIENCE

Software Development Engineer

Amazon

Interned at Amazon Development Centre for 6 months 2017

Projects did during Internship

- Blog Migration from TypePad to Amazon
 - Amazon owns a blog omnivoracious.com which is used to improve the book sales in amazon.com. It was recently hosted in a 3rd party blogging platform TypePad.
 - The project required to find a platform which satisfies all the requirements and transfer all TypePad content to the Amazon-owned platform maintaining the functionalities and compatibility.
 - Used Velocity Templating Language, Java, Amazon Tools and Many Blogging Platforms.
- Mobile Widget Disparity
 - Due to some recent changes in Amazon configuration, there was a content disparity between book description of mobile and desktop in millions of products.
 - The project required to find the reason for disparity and then find a solution that doesn't affect other features & is also expandable.
 - Used Java, configuration files, and Amazon Tools.
- Physical to Amazon Video Conversion
 - To promote Amazon Video Over Physical Video source (DVD, Blu Ray), certain features were created like Popup Window and messages above Add to Cart button.
 - This project required to create UI for each of the features and check whether it satisfies all the criteria.
 - Used Java, JSP, configuration files and bean creation.
