Seeking to hone and enhance my technical skills in Oracle Fusion Middleware while working as a professional in challenging and goal oriented environment.

Willing to relocate to: Bengaluru, Karnataka

WORK EXPERIENCE

Technical Consultant

Oracle - Bengaluru, Karnataka -

October 2015 to Present

- Have total work experience of 2.5 years on Oracle Fusion Middleware - SOA, WebLogic and MFT Module.
- Have extensively worked on Support, Testing, Cloning, Monitoring and Maintenance support and Enhancement for the E-Commerce Project with multi system module.
- Have good understanding on End-to-End Business Process.
- Experience in developing and deploying BPEL Processes using technology adapters (DB Adapter, File Adapter, FTP Adapter and JMS Adapter).
- Part of a team for developing a BPEL process to integrate Oracle Fusion Applications. This Orchestrated BPEL Process had process activities like data conversion, transformation and fault handling.
- Developed and deployed BPEL processes to import sales order and add lines to the sales order imported from external sources (Files and Databases) into Order Orchestration Module.
- Worked on BPEL process to create sales order within Order Orchestration Module using SOAPUI and Enterprise Manage.
- Have good understanding on Synchronous and Asynchronous processes, Transformations, XSD, XSLT and XPath
- Installation of Middle tier application server (SOA Suite 11g), configuring and deploying application adapters and integrating with other ERP or 3rd Party Services.
- Working with the client team and communicating with the business teams regarding integration with external Delivery System.
